

PL100

screen diagonal	100" (2,54 m)
screen width	2.03 m
screen height	1.52m
ratio	4:3
Total height	approx. 2,53 m
Total width	approx. 2,55 m
Depth	0,7 m
Weight	approx. 30 kg

Brief description

The PL100 projection screen is designed as movable free standing screen to show Analyzer's display next to DUT in EMC chambers. The fibre glass frame provides a stable appearance. The PL100 is easy to move by the installed lockable rollers.
